Tafa Belli Brown

Full-Stack Web Developer
Jinzhou, Liaoning, China (International Student) | +86 130 5040 9331 | tafabilly73@gmail.com
LinkedIn | GitHub | Live project: dream-scholarships.com

PROFESSIONAL SUMMARY

Full-stack web developer and international Computer Science student based in China, building and deploying production web applications with React, TypeScript, Node.js, Express, and PostgreSQL. Shipped three live platforms, including a scholarship matching app serving thousands of users, where indexing and Redis caching cut API response times by more than 40%. Strong in API design, query optimization, and front-end performance. Available for remote work worldwide.

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap
Backend: Node.js, Express.js, REST APIs, JWT Authentication, Server-Side Rendering (SSR)
Databases & ORMs: PostgreSQL, MongoDB, Supabase, Prisma, Drizzle ORM, Redis
DevOps & Tools: Git, GitHub, Docker, Vercel, Cloudflare, Postman, Figma, VS Code
Testing: Jest, Mocha, Cypress
Methodologies: Agile (Scrum, Kanban)
Languages: English (native), French (conversational), Mandarin (basic)

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer | Independent Projects & Software Delivery 2025 – Present
Remote

Dream Scholarships – Scholarship Matching Platform | dream-scholarships.com

- Architected and deployed a scholarship matching application with React, Node.js, and PostgreSQL, supporting thousands of active users.
- Reduced API response times by more than 40% during peak traffic through PostgreSQL indexing and Redis caching.
- Built RESTful APIs for scholarship search, user authentication, and application management.
- Implemented responsive design for a consistent experience across devices.

Tech: *React, TypeScript, Node.js, Express, PostgreSQL, Supabase, Redis, Tailwind CSS, Vercel*

Tsogobis – E-Commerce Platform | tsogobis.com

- Developed production-ready e-commerce features with React and Node.js, including RESTful APIs connecting front end and back end.
- Improved Core Web Vitals by migrating critical pages to Server-Side Rendering and adding automated image optimization, raising mobile performance scores by 35%.
- Wrote unit and integration tests to keep the application reliable as features shipped.
- Worked with designers to implement user-friendly interfaces; took part in Agile sprint planning and daily stand-ups.

Tech: *React, Node.js, Express, PostgreSQL, REST API, SSR*

TrucksZone – Commercial Vehicle Marketplace | truckszone.com

- Built a marketplace with advanced filtering, optimized search, and high-volume media management.
- Optimized complex SQL queries and added debounced search, improving search responsiveness on large datasets.
- Designed responsive interfaces for desktop and mobile, and improved scalability by tuning backend search and database interactions.

Tech: *React, Node.js, Express, PostgreSQL*

EDUCATION

Bachelor of Science in Computer Science Expected June 2028
Liaoning University of Technology, Jinzhou, Liaoning Province, China
